Manager's Name

Company Name

Company Address

Dear Manager's,

I am excited to apply for the **Software Developer** role at your **Company**, as advertised on your company's website. With a robust background in software development, database analytics, and process automation, I am eager to contribute my technical expertise and leadership skills to your innovative team.

As an Information Technology student at Seattle Central College pursuing an **AAS-T degree (Associate of Applied Science-Transfer degree) in Software Development and Database Analytics** (expected graduation: 2025), I have developed a strong foundation in programming, database design, and web development. Academic projects, such as optimizing SQL/NoSQL databases and creating interactive web applications, showcase my ability to address complex challenges with efficient, scalable solutions.

In my previous role as **Process Automation System Control Maintenance Supervisor** at United Sugar Company, I spearheaded critical automation system upgrades, including the migration of PMC15 and OPMC4 controllers to PCS7, significantly enhancing operational efficiency. My hands-on experience configuring DCS controllers, integrating Profibus and Ethernet networks, and collaborating with multidisciplinary teams highlights my ability to deliver impactful results in dynamic environments. Additionally, as an **Assistant Licensed Boiler Operator** with Seattle Public Schools, I ensured compliance with safety standards and maintained operational excellence for Grade 4 boilers.

Key Highlights of My Skills and Certifications:

- Proficiency in programming languages, including Java, Python, HTML/CSS and JavaScript.
- Certifications in **Simatic PCS7, Industrial Ethernet, and Variable Speed Drives** from Siemens.
- Multilingual fluency in English, Oromo, Amharic, and Arabic.

What excites me most about **your Company** is its commitment to leveraging software development and data analytics to drive innovation. I am confident that my technical expertise, analytical skills, and problem-solving abilities align seamlessly with your organization's mission and goals.

I welcome the opportunity to discuss how my background and skills can contribute to the success of **your Company**. Please feel free to contact me at fabsheru77@gmail.com or faris.absheiru@seattlecolleges.edu to arrange a conversation.

Thank you for considering my application. I look forward to the opportunity to contribute to your team and grow within your esteemed organization.

Sincerely,

Faris M. Abshiru
